ISAAC CARDOSO

IAM & SOFTWARE ENGINEER | IDENTITY INTEGRATIONS | REST APIs | AUTOMATION

Dallas–Fort Worth, TX | www.isaac-cardoso.com | www.linkedin.com/in/cardosoisaac

PROFESSIONAL SUMMARY

IAM and Software Engineer with 7 years of enterprise experience in identity lifecycle management, integration development, automation, and production support. Experienced in Oracle Identity Manager and SailPoint Identity Security Cloud, including enterprise IAM migrations, connector development, REST APIs, and identity provisioning workflows. Proven ability to own technical solutions, troubleshoot complex integrations, automate business processes, and lead cross-functional initiatives.

TECHNICAL SKILLS

- IAM Platforms: Oracle Identity Manager (OIM), SailPoint Identity Security Cloud (ISC)
- Identity Engineering: Identity Lifecycle Management, Provisioning, Deprovisioning, Identity Governance, Connector Development, Provisioning Policies, Transforms, Cloud Rules, Workflows
- IAM Engineering: Connector Development, Provisioning Policies, Transforms, Cloud Rules, Before Provisioning Rules, Workflows, Automation and Troubleshooting
- Development and Integration Engineering: Java, REST API Development, Enterprise System Integrations, OAuth 2.0, SQL, XML Processing, API Security
- Cloud DevOps and Security: Kubernetes, CI/CD Automation, GitHub Actions, Jenkins, Azure Key Vault, Infrastructure Security, Vulnerability Remediation

PROFESSIONAL EXPERIENCE

Infosys Limited — Technology Analyst | Jan 2019 – Present
Consultant supporting Lumen Technologies | Enterprise IAM

- Developed the Salesforce connector end to end for the migration from Oracle Identity Manager to SailPoint Identity Security Cloud, contributing to the migration of SAVVIS AD, Fieldglass, and SuccessFactors connectors.
- Developed SailPoint transforms and cloud rules, leveraged SailPoint APIs for internal IAM operations, and provided ServiceNow integration teams with endpoint and payload specifications for Salesforce and SAVVIS account requests.
- Owned the end-to-end development of a file-based SuccessFactors integration, building an XML parser and automated processing jobs that applied business rules and stored processed records in database tables.
- Engineered the SuccessFactors processing solution to handle approximately 70,000 cutover records and 1,000–2,000 daily records, including delta and future-dated records, using automated jobs scheduled at five-minute, two-hour, and daily intervals.
- Led configuration, testing, and consumer coordination for migrating IAM APIs from Basic Authentication to OAuth 2.0 and from on-premises Apigee to Apigee X. Authored YAML configurations, version-controlled in Git and deployed through GitHub Actions.
- Trained six teammates to support a growing application provisioning queue, expanding team capacity and helping improve provisioning turnaround time.

CERTIFICATIONS AND CREDENTIALS

- Microsoft Certified: Azure Fundamentals (AZ-900) | AWS Certified Cloud Practitioner
- SailPoint Identity Security Professional & Expert - Knowledge Badge

EDUCATION

The University of Texas at Dallas | B.S in Computer Science | 2018
